COME SHAPE THE (VIRTUAL) FUTURE OF WORK

# DATA AND BUSINESS ANALYST

## COME SHAPE THE (VIRTUAL) FUTURE OF WORK

You want to have immediate impact and help grow a scale-up by generating insights, building a data architecture and working on a wide range of business topics in the new and exciting field of virtual reality, gamification and immersive learning.

### WHO WE ARE AND WHAT WE DO

- FL-simulators is a Belgian-American company established in 2015 after inventing the world's first virtual reality forklift-simulator. [www.forklift-simulator.com](http://www.forklift-simulator.com)
- Our VR simulators and products are already used by more than 100 institutions and companies worldwide to screen, train and inspire their workforce. (e.g. Pepsico, BMW, Toyota, DHL, Forem, VDAB, US Air Force,...)
- Play hard, work smart. This is just the start. Ready player one.

### YOUR ROLE

- Be the main driver of a research project with the University of Antwerp about skill-based, predictive and adaptive learning.
- Scrutinise raw data from our VR simulators, customers and other sources. Structure and make it meaningful.
- Work on a wide range of business topics, some data driven, others more practical.

### BACKGROUND AND SKILLS

- A formal data or learning oriented education can come in handy but any master background with affinity for data might do.
- Any prior work experience as data, business analyst or consultant is welcome but not mandatory.
- Action driven self-starter. Strong work ethic. Find solutions in your network and get things done.

### COULD BE A PLUS

- Knowledge of programming languages such as SQL, Oracle and Python
- Being an avid gamer or forklift-driver :)
- Having run your own micro business, youth organization or digital project.

### WE OFFER

- To be at fore-front in one of the hottest tech. fields, virtual reality, while making people's jobs in the booming logistics industry more safe and exciting.
- Hands-on experience. Real innovation, projects and customers. See the results of your work.
- To learn from and with you. Your colleagues built businesses and have prior experience at Oculus, Facebook, Apple, Coca-Cola, Unilever and McKinsey.
- International mindset and working environment. Potential travel.
- Market standard compensation, flexible working and a nice start-up style office in Antwerp.
